The Chinese University of Hong Kong (CUHK) Business School has been developing global business leaders for the Asian Century since its establishment in 1963.

We are a global institution that embraces innovation, nurtures entrepreneurial mindsets and promotes social responsibility. We leverage our deep connections to the Greater Bay Area (GBA) and actively contribute to the social and economic development of this region. Through teaching, learning, research and practice, we forge to drive sustainable and positive impact in business and society.

All of these are our hallmarks, as part of a university grounded in research with a global vision and mission to combine tradition with modernity, and to bring together China and the West. This is the CUHK difference.
