

**THE CHINESE UNIVERSITY OF HONG KONG**  
**CUHK Business School**  
**School of Accountancy**  
**Part I: Databases / Datasets List - on WRDS**  
**(As of July 2018)**

<b>Databases / Datasets</b>	<b>Brief Description</b>	<b>Platform / Access</b>
Wharton Research Data Services (WRDS)	Wharton Research Data Services (WRDS) is the award-winning research platform and business intelligence tool for 50,000+ corporate, academic, government and nonprofit users at 450+ institutions in 35+ countries. WRDS provides the leading business intelligence, data analytics, and financial research platform to global institutions—enabling comprehensive thought leadership, historical analysis, and insight into the latest innovations in academic research.	<a href="http://easyaccess1.lib.cuhk.edu.hk/limited/wrds.htm">http://easyaccess1.lib.cuhk.edu.hk/limited/wrds.htm</a>
Bank Regulatory	The Bank Regulatory Database contains five databases for regulated depository financial institutions. These databases provide accounting data for bank holding companies, commercial banks, savings banks, and savings and loans institutions. The source of the data comes from the required regulatory forms filed for supervising purposes.	WRDS
Blockholders	This dataset contains standardized data for blockholders of 1,913 companies. The data was cleaned from biases and mistakes usually observed in the standard source for this particular type of data. Blockholders' data is reported by firm for the period 1996-2001.	WRDS
BoardEx (on WRDS)	Access extensive data on the boards of publicly listed and notable private companies in all regions of the world.	WRDS
CBOE Indexes	The CBOE (Chicago Board Options Exchange) Volatility Index® (VIX®) is a key measure of market expectations of near-term volatility conveyed by S&P 500 stock index option prices.	WRDS
Compustat North America (both Annual and Quarterly) (Legacy)	Compustat North America is a database of U.S. and Canadian fundamental and market information on more than 30,000 active and inactive publicly held companies. It provides thousands of Income Statement, Balance Sheet, Statement of Cash Flows, and supplemental data items.	WRDS
Compustat North America Segments (Legacy)	Business and geographic segment data.	

Compustat Global & EMDB (Legacy)	Compustat Global provides data covering publicly traded companies in more than 80 countries, representing over 90% of the world's market capitalization, including coverage of over 96% of European market capitalization and 88% of Asian market capitalization. S&P's EMDB covers 53 markets and more than 2,200 stocks in developing countries.	
Compustat - Capital IQ Key Developments	Capital IQ is a suite of databases from S&P. They connect to the Compustat family of databases through Gvkey. Key Developments provide structured summaries of material news and events that may affect the market value of securities. It monitors over 100 Key Development types including executive changes, M&A rumors, changes in corporate guidance, delayed filings, SEC inquiries, and many more. Each Key Development item includes announced date, entered date, modified date, headline, situation summary, type, company role, and other identifiers.	WRDS
Compustat - Capital IQ People Intelligence	People Intelligence covers over 4.5 million professionals and over 2.4 million people including private and public company executives, board members, and investment professionals, globally. Each professional in the Capital IQ database has a distinct profile which can include contact details, biography, education, job functions and titles, board memberships, compensation, insider activity, and options holdings.	WRDS
CRSP Stock Quarterly/Annual Update	The Center for Research in Security Prices (CRSP) maintains the most comprehensive collection of security price, return, and volume data for the NYSE, AMEX and NASDAQ stock markets. Additional CRSP files provide stock indices, beta-based and cap-based portfolios, treasury bond and risk-free rates, and mutual funds data.	WRDS
DMEF Academic Data	Direct Marketing Educational Foundation (DMEF). Four individual data sets, each containing customer buying history for about 100,000 customers of nationally known catalog and non-profit database marketing businesses are available through DMEF to approved academic researchers for use within academic situations.	WRDS
Dow Jones	The Dow Jones covers Dow Jones Averages and Total Return Indexes. The Dow Jones Averages are comprised of The Daily and Monthly Dow Jones Composite (DJA), as well as The Dow Jones Industrial (DJI), The Dow Jones Transportation (DJT), The Dow Jones Utility (DJU), The Dow 10, and The Dow 5. The Dow Jones Industrial Average, the best known U.S. stock index, and the Dow Jones Transportation Average, the oldest U.S. stock index were created by Charles Henry Dow, co-founder of Dow Jones & Company, and maintained and reviewed by the editors of The Wall Street Journal. Dow Jones Indexes is the source of Dow Jones information and the provider of this data. The Dow Jones Total Return Indexes are	WRDS

	introduced by Dow Jones Indexes as part of the Dow Jones Total Market Index Series. The Total Return Indexes account for reinvested dividends. Data for the Total Return Indexes is available after 1987.	
Eventus	Eventus performs event studies using data read directly from CRSP stock databases or pre-extracted from any source. The Eventus system includes utility programs to convert calendar dates to CRSP trading day numbers, convert CUSIP identifiers to CRSP permanent identification numbers, and extract event study cumulative or compounded abnormal returns for cross-sectional analysis.	WRDS
Execucomp (on Compustat)	Execucomp provides executive compensation data collected directly from each company's annual proxy (DEF14A SEC form) for all firms in S&P 1500 index. Detailed information on salary, bonus, options and stock awards, non-equity incentive plans, pensions and other compensation items are available.	WRDS
FactSet Ownership (also named as Lionshares)	FactSet Ownership provides global institutional, mutual fund, stakeholder, and float-related share ownership information. Provides data and tools to analyze global markets, public and private companies, and equity and fixed income portfolios with coverage of aggregates, corporate governance, economics, financial research and filings, mergers and acquisitions, news, ownership, people, prices, and private capital.	WRDS
Fama French & Liquidity Factors	The Fama-French Portfolios are constructed from the intersections of two portfolios formed on size, as measured by market equity (ME), and three portfolios using the ratio of book equity to market equity (BE/ME) as a proxy for value. Returns from these portfolios are used to construct the Fama-French Factors.	WRDS
Federal Reserve Bank	The Federal Reserve Bank Reports in WRDS contain two databases collected from Federal Reserve Banks: Foreign Exchange Rates (Federal Reserve Board's H.10 Report). The WRDS FX database is based upon the Federal Reserve Board's H.10 release and contains Foreign Exchange rates for over 30 world currencies and trade-weighted indices. Interest Rates (Federal Reserve Board's H.15 Report). The WRDS RATES database is based upon the Federal Reserve Board's H.15 release that contains selected interest rates for U.S. Treasuries and private money market and capital market instruments.	WRDS

IBES	I/B/E/S (Institutional Brokers Estimates System) from Thomson Reuters. I/B/E/S International Inc. created their Academic Research Program over 30 years ago to provide both summary and individual analyst forecasts of company earnings, cash flows, and other important financial items, as well as buy-sell-hold recommendations. In 2000, I/B/E/S was integrated with Thomson Reuters / First Call, and in 2012 First Call was discontinued.	WRDS
Institutional Shareholder Services (ISS)	Institutional Shareholder Services (formerly RiskMetrics). ISS a leader in corporate governance data. IRRC was initially the data provider for WRDS. IRRC, however, was acquired by ISS in 2005. This acquisition did not initially affect the data provided through WRDS, but that changed in 2007 when RiskMetrics changed the methodology to collect data to follow ISS specifications. Also, the new methodology does not collect all the variables needed to create the Governance Index (GIndex). Access Historical Governance data, Historical Directors data, Incentive Lab data and Shareholder Proposal data.	WRDS
MFLINKS	Mutual Fund Links. The MFLINKS tables provide a reliable means to link CRSP Mutual Fund (MFDB) data that covers mutual fund performance, expenses, and related information to equity holdings data in the Thomson Reuters Mutual Fund Ownership data (formerly known as the CDA S12 data). Using MFLINKS allows a researcher to gather detail on holdings either for particular funds or fund families and groups of funds at specific points in time.	WRDS
Morningstar CISDM	Morningstar CISDM (Center for International Securities and Derivatives Markets) Database provides subscribers with qualitative and quantitative information for more than 6,000 hedge funds, funds of funds and CTAs since 1994. The revised new database is a highly valued research tool across the hedge fund and CTA fields.	WRDS
MSCI (formerly KLD and GMI)	MSCI ESG KLD on WRDS: The MSCI ESG KLD STATS DATA SET was created by KLD Research & Analytics, Inc. (KLD) in 1991. MSCI acquired KLD in 2010. The corporate governance historical dataset (formerly GMI Ratings) is updated annually and contains approximately 225 unique data points organized into four primary categories for approximately 3,000 US companies.: 1) Companies, 2) Directors, 3) CEO Compensation, and 4) Takeover defenses. The dataset is updated annually and dates back to 2001.	WRDS

MSRB	MSRB - Municipal Securities Rulemaking Board. As the primary regulator of the \$3.7 trillion municipal security market, the MSRB collects and makes publicly available through its Electronic Municipal Market Access (EMMA). The trades represent transactions by investors and dealers in the over-the-counter market for municipal securities issued by municipal entities, including states, counties, cities and special tax districts.	WRDS
OptionMetrics	Coverage: 1996 - present. Ivy DB OptionMetrics is a comprehensive source of historical price and implied volatility data for the US equity and index options markets. Encompassing data since 1996, Ivy DB OptionMetrics contains historical prices of options and their associated underlying instruments, correctly calculated implied volatilities, and option sensitivities.	WRDS
OTC Markets	Access the most comprehensive, timely and accurate data available on the 10K securities that trade on the OTCQX, OTCQB and OTC Pink Marketplaces.	WRDS
PACAP	Pacific-Basin Capital Markets. The PACAP Research Center creates, maintains, and distributes comprehensive, computerized databases which track capital markets data for eight Pacific-Basin countries/regions (HK, Indonesia, Japan, Korea, Malaysia, Singapore, Taiwan, and Thailand) on a continuous and systematic basis. PACAP Databases contain extensive information on all listed companies from each country's/region's major stock exchange including: daily security prices and returns, capital distributions, financial statements, market indices and returns, and economic statistics.	WRDS
Penn World Tables	The Penn World Tables provides national income accounts-type of variables converted to international prices. The homogenization of national accounts to a common numeraire allows valid comparisons of income among countries.	WRDS
PHLX	Philadelphia Stock Exchange (PHLX). The Philadelphia Stock Exchange founded in 1790 is the oldest organized stock exchange in the nation. As one of North America's primary marketplaces for the trading of stocks, equity options, index options and currency options, the PHLX continues to be a market leader in the development and introduction of innovative new products and services.	WRDS
RavenPack News Analytics	RavenPack News Analytics 4.0. RavenPack analyzes unstructured content from thousands of publications to extract information on named entities and financially relevant events in the public eye.	WRDS

SEC Order Execution	SEC-mandated Disclosure of Order Execution Statistics. As a result of Rule 11Ac1-5, market centers that trade national market system securities must make monthly, electronic disclosures of basic information concerning their quality of executions on a stock-by-stock basis. In addition, market centers must disclose the extent to which they provide executions at prices better than the public quotes to investors using limit orders.	WRDS
TAQ	The Trade and Quote (TAQ) Database. 1) Trade and Quote: Contains intraday transactions data (trades and quotes) for all securities listed on the New York Stock Exchange (NYSE), American Stock Exchange (AMEX), as well as Nasdaq National Market System (NMS) and SmallCap issues. 2) Reg SHO - NYSE Short Sales: Contains data related to SEC Regulation SHO per the terms of the SRO requirement to make Short Sale transactions data available on a monthly basis for trade dates beginning January 2005 through the pilot period ending 2007. 3) Millisecond Trade and Quote: Trades and Bids are tracked at the millisecond level (HHMMSSXXX).	WRDS
Thomson-Reuters Mutual Fund Holdings - (s12)	Thomson-Reuters Mutual Fund Holdings database provides security holding information for all registered mutual funds that report their holdings with the SEC, plus 3,000 global funds. Reported securities include all NYSE/AMEX/NASDAQ, Toronto, and Montreal common stocks. This database is formerly known as CDA/Spectrum, and is often referred to as Spectrum 12 for ownership information by registered Investment Companies or Domestic Mutual Funds.	WRDS
Thomson-Reuters Institutional (13f) Holdings - s34	Thomson-Reuters Institutional Holdings (13F) Database provides Institutional Common Stock Holdings and Transactions, as reported on Form 13F filed with the SEC. This database is formerly known as CDA/Spectrum 34 database, and contains ownership information by institutional managers with \$100 million or more in Assets Under Management (Section 13(f) Securities).	WRDS
Thomson-Reuters Insider Filing	The TFN Insider Filing Data Files are designed to capture all insider activity as reported on SEC forms 3, 4, 5, and 144. In addition, TFN adds value by making systematic interpretations on the accuracy of as-reported data and inserting “cleansed” fields for comparison. A cleanse code is included to denote the overall level of confidence in each record.	WRDS

TRACE	OTC Corporate Bond and Agency Debt Bond Transaction Data. TRACE - Trade Reporting and Compliance Engine is FINRA's over-the-counter (OTC) corporate bond market real-time price dissemination service. Introduced in July of 2002, TRACE consolidates transaction data for all eligible corporate bonds - investment grade, high yield and convertible debt. As a result, individual investors and market professionals can access information on 100 percent of OTC activity representing over 99 percent of total U.S. corporate bond market activity in over 30,000 securities. The TRACE Historical Time and Sales data is available through WRDS. The information collected and disseminated for all publicly traded corporate bonds by TRACE includes the time of execution, price, yield, and volume.	WRDS
WRDS SEC Analytics Suite	Coverage: 1994 - present. This data mining tool allows researchers to retrieve and export customized subsets of the most common SEC filing reports reside in WRDS datasets.	WRDS
